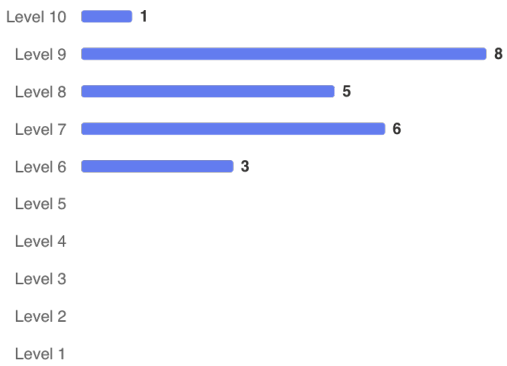
10 respondents (42%) answered Shire Council for this question.

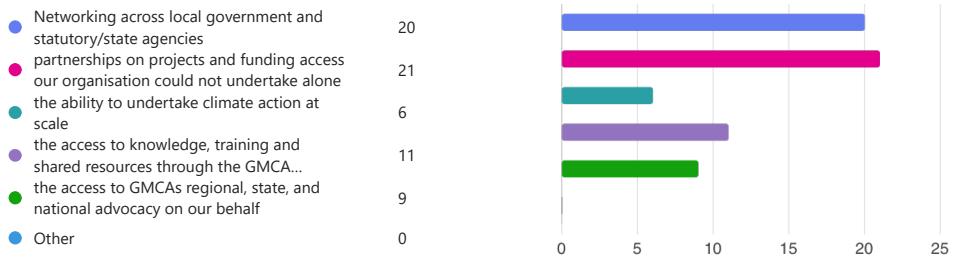
2. Are you a

3. Overall, on a scale of one to ten with one being not well, and ten excellent, how have you felt the GMCA [as an Alliance] has addr essed matters of regional climate change with mitigation, adaptation, advocacy, and capacity building of members?

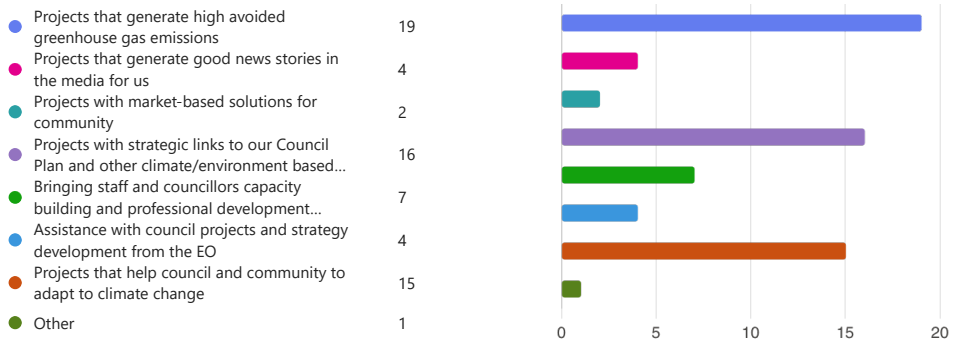
7.91
Average Rating



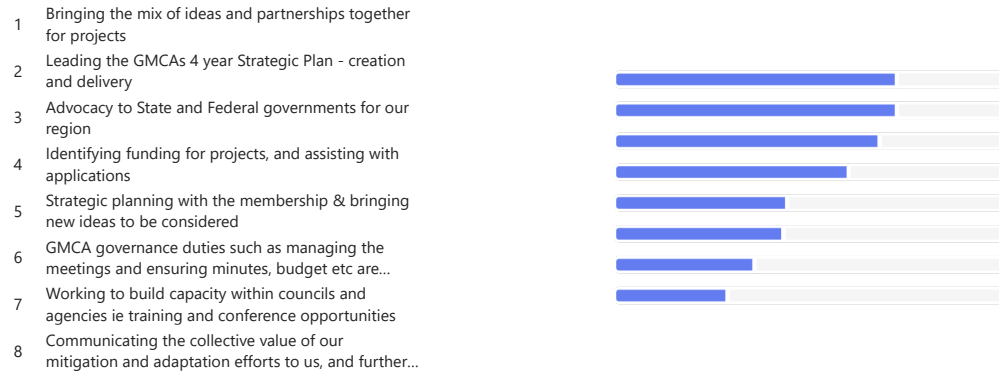
4. What has your council valued most from Membership with the GMCA (please select your top 3)



5. What would translate to a "high value membership" at your council/Agency? (please select your top 3);



6. The GMCA employs a full time Executive Officer to manage its overall needs. Please rank what you see as the most valuable aspe cts of this role for the GMCA



7. A list of GMCA past and current projects, their known outcomes, and the participants 2012-present has been mapped out. Please share your thoughts and suggestions, ie a way to chart the outcomes of our research; better ways to track dollar savings; ways to track non-financial outcomes.

Please click the below link to access the list which sits with the Executive Officer's shared files:
https://gbga-my.sharepoint.com/:x:/g/personal/eo_gbga_com_au1/EU0eGVbtP19PlTE31dI-7xQBbI-JxoNqS6o4uBRz4yfU9w?e=m1hOp2

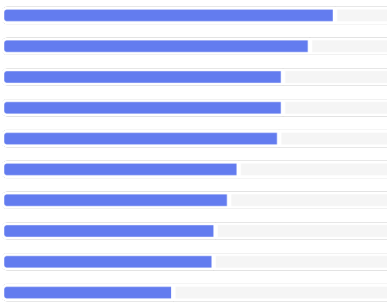
8. Below is a draft list of projects members have put forward in the past or recently (note current projects have not been listed).
Mitigation=direct ghg avoiding projects;
Adaptation=projects that adapt to inevitable climate changes;
hybrid=a mix of both;
capacity building=training and support of members.

Please rank proposed projects in terms of where you and your organisation would prefer the GMCA put its resources and what it would potentially contribute to;

1. ADAPTATION: Naturally Cooler Towns - Implementation
2. CAPACITY BUILDING: Building capacity in the northeast to implement Sustainable Subdivisions
3. ADAPTATION: Partner with GVW to support regional water adaptive projects & become a water resilient...
4. HYBRID: Carbon Sequestration Offset Projects: trees, soil, wetlands / partner with metro councils to...
5. MITIGATION: Getting off Gas - potential statewide LG partnership project to replace large-scale counc...
6. ADVOCACY: Climate Change in Victorian Planning : Advocacy Project
7. HYBRID: Initiate regional Bulk Buy Projects ie water tanks, heat pumps, wheat heaters
8. ADAPTATION: Victorian Climate Resilient Councils VCRC collaboration
9. CAPACITY BUILDING: Build a rotating group of E&S staff to assist smaller councils temporarily lacking...
10. ADVOCACY: Build localised knowledge and support via a professional online presence



9. Are there any projects or issues not listed above you and/or your organisation would like to see the GMCA address?

10. Your responses will inform our new Strategic Plan. We are currently in the process of engaging a Sustainable Development Goals

expert, and a facilitator to assist in identifying parallels and gaps across member's climate policy's plans and strategies. This will produce an alignment across member goals, Alliance goals, and the UN Sustainable Development Goals, with localised targets a nd indicators in a reporting framework, that will show us our progress.

Is there any further information you wish to add not covered above?
